Join us for a Pacific NW Forum on:

Managing Chemicals in Products

Best practices in moving beyond substances of concern to safer alternatives

Join leaders from the business, government, and non-profit communities in the premier workshop for learning pathways to safer chemicals in products

Learn how to:

- Be ahead of government and retail regulations
- Address supply chain challenges
- Avoid chemicals of concern
- Benchmark success
- Select safer alternatives
- Anticipate trends

Hear from invited speakers:

- Catholic Healthcare West
- Google
- Hewlett-Packard
- International Living Future Institute
- Seagate
- REI
- Staples

October 26 - Green Screen Training [Space is limited]

In-depth experiential training on how to use the Green Screen for Safer Chemicals, a tool developed by Clean Production Action for identifying chemicals of concern and selecting safer alternatives.

October 27 - Best Practices Workshop on Managing Chemicals in Products

Hands on workshop for learning how to create a comprehensive program for addressing concerns with chemicals in products and up supply chains and moving to safer alternatives.

These events will be of particular interest to designers and decision-makers such as professionals in supply chain management, materials selection, procurement, product and process design, environmental health and safety, sustainability and regulatory affairs who need to select safer chemicals for their products.

Location:

Edgewater Hotel
2411 Alaskan Way, Pier 67
Seattle, WA 98121
